Commissioner Jane Henney
Docket No. 00P-1211/CP1
FDA Dockets Management Branch
Branch (HFA-305)
5630 Fishers Lane, Room 1061
Rockville, MD 20852

Dear Dr. Henney,

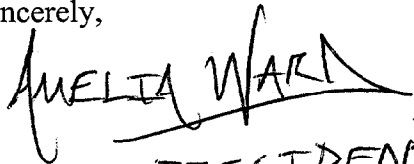

We are writing to express our concern over the FDA's regulation of genetically engineered (GE) food. We request that the agency's current policies be changed, and we support all the points in docket #00P-1211/CP1:

1. All GE foods should be clearly labeled so that we are informed and have a choice.
2. GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market non-animal safety testing to determine the long term impacts to human health and the environment.

We strongly feel that, as consumers, we have a right to know whether or not the food we buy is GE and then have the opportunity to make a decision.

Thank you very much.

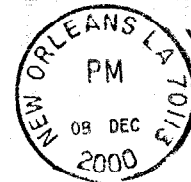

Sincerely,

PRESIDENT.

00P-1211
